

This petition is to request that Low Power FM (LPFM) stations NOT be given priority over FM translator service.

K-LOVE is my preferred radio station in this area. K-LOVE serves this area by providing announcements for charitable events. These announcements are provided free of charge to these charitable organizations. K-LOVE also provides encouragement in many ways - through scripture quotes, uplifting stories and great music just to name a few ways that they serve this community.

If K-LOVE were to be displaced by a LPFM station it would be a significant loss to this community. K-LOVE broadcasting is deliberately focused at a national level. They broadcast across this entire great nation and their programming reflects this fact. A LPFM station would not represent such a broad audience.

Allowing K-LOVE to continue using FM translator service is in the best interest of the public because their broadcasts strengthen and re-enforce family and community values. Their broadcasts are fit to be heard by any age group and parents can allow their entire family to listen to the broadcasts without concern that their children will be exposed to inappropriate material.

I thank you in advance for your time and consideration.

Thank you,  
Dave Leaver
